

KOR-FLO® PVC PROFILE FITTINGS

For use with Kor-Flo® PVC Profile Pipe

About PVC Profile Fittings

We manufacture fabricated fittings for use with various types of PVC profile pipe. We offer a complete line of fittings, including tees, wyes, bends, increasers and adapters. Our high quality fittings have the same high strength and corrosion resistance as our Kor-Flo® Pipe.

PVC Profile fittings are fabricated from SDR35 gasketed sewer pipe. The mainline connection is designed for profile pipe and the branch connection can be ordered to accommodate profile pipe or solid wall pipe. Appropriate gaskets are supplied with every fitting purchased.

Our PVC profile fittings are available in 200mm - 900mm (8" - 36") diameters. They are third-party certified to CSA B182.4 and meet the requirements of ASTM F794. If our profile fittings have a branch with a gasketed sewer hub, the branch meets CSA B182.1 and B182.2 and ASTM D3034 or F679.

PVC profile fittings are durable, easy to install and long lasting.

Advantages of PVC Profile Fittings include:

- Versatile – our PVC profile fittings can be used with various types of PVC profile pipe.
- Water tight joints – no risk of infiltration or leakage.
- Corrosion Resistant – our fittings have no metallic parts and do not require costly anodes or protective coatings.
- Abrasion Resistant – there is no danger of pitting of the PVC material.
- Quality Control – we have extensive quality control testing in our manufacturing facilities.
- Adapters – we carry adapters for all types of sewer pipe to make connections to laterals, sewer stubs and sewer and storm mains.
- Smooth Interior walls – the interior walls of our PVC profile fittings allow for higher flow rates.

We provide a Gasketed Sewer Installation Guide with detailed recommendations on pipe handling, assembly and testing of Kor-Flo® PVC Profile Pipe and PVC Profile Fittings.

Certifications

PVC Profile fittings proudly meet the following standards.

CSA B182.4

F794

Our various pipe and fittings solutions have been manufactured to meet the need of our customers and their applications. Contact one of the Sales Centres for more information:
