D-SERIES SOLVENT WELD DWV FITTINGS

Injection Molded in Sizes 4" – 12"
Fabricated in Sizes 10" – 24"

Applications

The most complex installations require the most advanced fittings. Injection molded DWV fittings from NAPCO eliminate typical problems resulting from installing a DWV system with inconsistent, inaccurate, or non-certified fittings. When installing or specifying DWV you can count on a 45° bend being exactly that, a 45° bend. Literally from every angle, NAPCO understands the importance of accuracy and consistency on the job site and provides you with a perfect fit from roof to grade.

Our DWV fittings make installation of the system quicker, easier and less costly. Productivity gains are significant when our DWV fittings are specified and installed. Combine with our fabricated fittings to ensure a trouble-free installation.
